ART&FAKT INTERIORS

“ARTEFACT” — objects created and shaped by human hand.

ART&FAKT Interiors creates objects in close collaboration with leading artists and designers. This first collection is built of objects designed by Jonas Bohlin.

Our passion for craftsmanship is reflected in the details and the carefully selected sustainable materials we choose. Our aim is to create objects that are elegant and functional, often with a surprising, playful twist. We believe that great design is timeless.

Our arena is global and our objects and solutions are inspired by exciting and attractive places where people meet.

Contact us to find out more about our collection and our global thoughts on art, design and long-term sustainability.

Jonas Bohlin

revolutionized the Swedish furniture industry. Today he is one of the most appreciated Swedish designers and interior architects. His restaurant interiors, all have a typical Bohlin touch: Functional, playful, stylish and a bit surprising. Simply coziness.

In 1981 Jonas made his breakthrough as designer with the chair Concrete. More of a sculpture than a chair, almost impossible to sit on, it became a discussion and burning point in Swedish furniture history. Jonas Bohlin is always one step ahead. When postmodernism became stiff and rigid, Jonas already was on his quest for lighter and more poetic expressions, for example Liv, a furniture and lighting collection.

Bohlin then took on public meeting places, bistros and restaurants, with the same playfulness. First he designed Rolfs kök, a modern, unconventional Stockholm restaurant that has become a true classic. The restaurants Sturehof, Luzette, Taverna Brillo and La Colline are all modern meeting places with an exciting mix of European bistro tradition and the excentric Jonas Bohlin stylish twist. Nothing is out of reach for Jonas as designer and artist: Tram stops, lighting systems, art installations, VIP lounges, cutlery along with everything else that is part of life.

Jonas Bohlin, designer and decorated interior architect since 1981. Professor at Konstfack 2004-2009. Since 1997 member of the Royal academy of Arts. Prins Eugen medal 2014. Interior of the year 2016 for bistro Luzette.
